

Point & Figure Advanced Level

Point and figure is the western oldest price charting techniques ever and it can be used as a price analysis integrated system and by its medium- and long-term targets, it has a preferential edge over the all other charting methods.

By the end of this course you will be able to:

- Professionally analyze different instruments using Point and Figure 3-box reversal method
- Determine Medium- and Long-Term Targets
- Identify outperforming and underperforming instruments using P&F
